

Women Pioneering Global Harmony

11th May 2023

This meeting celebrates the tremendous efforts by women around the world in shaping an inclusive and thriving future. It focuses on how women do this in innovative ways, pioneering a sustainable, peaceful, and harmonious future for all. With an objective to accelerate global harmony we will address: the environment, the economy, leadership, diversity and inclusion, education, lifecycles and more.

This meeting further explores the impact of women in leadership; how they can inspire others to live up to their full potential and leave a mark on their organizations, companies, and the world.

Coming from numerous international organizations, companies and associations, participants will have a chance to learn and be inspired by several speakers and interact in small discussion groups. Purposeful networking will strengthen connections for our work together.

Agenda (Times in CET)

10:15 Welcome Coffee

10:45 Opening Ceremony: Pioneering Global Harmony

What is the role of women in leadership in inspiring others to live up to their full potential and leave a mark on their organizations, companies, communities, lives, and the world at large? How do we ensure women have equal access to freedom of choice and what is the role of men? How can we together work in a way that creates a harmonious future with global prosperity?
