

Session Program

15-17 Oct 2025

Expert Meeting on Statistical Data Confidentiality

Safe Tables and Maps

Poblenou Campus Auditorium
Roc Boronat, 138 08018 Barcelona

Wednesday 15 October

14:25

Safe Tables and Maps - 1

Session | **Location:** Poblenou Campus Auditorium, Roc Boronat, 138 08018 Barcelona | **Convener:** Sarah Giessing

14:30–14:44

A framework for Cell Key Method parameters calibration based on risk-utility trade-off

Speaker

Julien Jamme

14:45–14:59

Using perturbative methods for magnitude tables in statistical disclosure control

Speaker

Mr Lars-Erik Almberg

15:10–15:20

Some ideas for future development of the open source package Tau-Argus

Speakers

Mr Peter-Paul De Wolf, Ms Sarah Giessing

15:20–15:34

The Potential of Differential Privacy for Japanese Population Census Data

Speaker

Mr Shunsuke Kato

15:45

16:05

Safe Tables and Maps - 2

Session | **Location:** Poblenou Campus Auditorium, Roc Boronat, 138 08018 Barcelona | **Convener:** Sarah Giessing

16:05–16:19

A comparison of data utility of the Cell Key Method and SynDiffix for geocoded data

Speaker

Simon Kolb

16:20–16:30

Targeted Record Swapping for Grid-Based Population Data: Lessons from the 2021 Polish Census

Speaker

Mr Tomasz Klimanek

16:30–16:44

Bayesian methods for the evaluation and limitation of disclosure risk in official statistics

Speaker

Dr Violeta Calian

17:20
