Scientific Programme

****Launch of WHO Learning on TAP****

This Universal Health Coverage Day 2025, we are pleased to invite you to the launch event for Learning on TAP, a new open-access blended learning resource available on the WHO Academy online learning platform.

About Learning on TAP

Learning on TAP is designed to strengthen health and care workforce capacity on a range of health topics, including assistive technology and sensory functions (eyes and ears). Courses are designed for people working in primary care and community settings to improve access to health services closer to people's homes. This includes nurses, pharmacists, community health workers, physical and occupational therapists, school and social services personnel, and more!
